Expert Review Team Summary Note

FINAL REPORT

<b>Report title</b>	Review of the 2024 Adjustment Application by Netherlands
<b>Country</b>	Netherlands
<b>Report reference</b>	CEIP/Adjustment RR/2024/NL
<b>Date</b>	03/09/2024
<b>Version</b>	Final Report

## Expert Review Team

<b>Role</b>	<b>Sectors</b>	<b>Name</b>	<b>Country</b>
Adjustment lead reviewer	All	Ben Richmond	United Kingdom
Primary expert reviewer	Agriculture	Susana Lopez-Aparicio	EU/(EEA/ETC)
Secondary expert reviewer	Agriculture 3B, 3D	Anđelka Radosavljević	Serbia
Basic checks (Step 1 and 2)	N/A	Sabine Schindlbacher	CEIP

<b>References .....</b>	<b>7</b>

## 1 Introduction

1. As mandated by Executive Body decision 2012/12, applications for adjustments submitted by Parties are subject to expert review. Technical coordination of and support for the 2024 review was provided by the Centre on Emission Inventories and Projections, represented by Ms. Sabine Schindlbacher. The members of the expert review team (ERT) were selected from the experts appointed to the Centre on Emission Inventories and Projections roster of experts by the Parties.
2. The review of adjustments approved prior to 2024 was performed in parallel with the stage 3 review. The ERT for the adjustment review was composed of one lead reviewer, Mr. Ben Richmond (United Kingdom) and two sector experts Ms. Susana Lopez-Aparicio (EU/EEA(ETC)) and Ms. Anđelka Radosavljević (Serbia). Each application was reviewed by two independent sectoral experts during April, May and June 2024.
3. Netherlands has submitted an adjustment for NMVOC emissions from NFR 3B1a: Manure management – Dairy cattle, originally approved in 2022. The adjustment has been justified with the explanation that these sources were unknown when the emission reduction commitments were set. The full adjustment review report of the adjustment application submitted in 2022 is available at <https://www.ceip.at/gothenburg-protocol/review-of-adjustments>. This document summarizes the outcome of the review performed in 2024.

## 2 Summary Information

**Table 1: Summary Information on the Submitted Application**

Reasons for adjustment application (Decision 2012/3, para 6)	New source for NMVOC emissions
Adjustment Application has been originally approved in	2022
Pollutant for which adjustment is applied for	NMVOC
Sector/Pollutant for which adjustment is applied for	3B1a/NMVOC
Year(s) for which inventory adjustment is applied	2005, 2020
Date of the submission of the previously approved adjustment	15 February 2024
Resubmission of the previously approved adjustment application	27 February 2024
Date of submission of supporting documentation	15 February 2024
Additional information was provided during the review in response to requests from the ERT	13 June 2024
Netherlands does not comply with its NMVOC emission reduction commitments listed in Annex II of the Gothenburg Protocol	Yes
Netherlands provided information on the impact of the adjustment to its emission inventory, and the extent to which it would reduce the current exceedance and possibly bring the Party into compliance with its emission reduction commitments for the years 2020 for NMVOCs.	Yes
Netherlands included information on when it will meet its emission ceiling for NMVOC in the supporting documentation	Yes

### 3 Summary of the assessment of the ERT

#### 4. NMVOC emissions from NFR 3B1a: Manure management - Dairy cattle

5. The reviewers conducted an assessment of the adjustment of NMVOC emissions from NFR 3B1a: Manure management - Dairy cattle for the Netherlands, originally approved in 2022. The adjustment has been recalculated in 2024 and the corresponding values present small changes (<0.05%) compared to the latest approved version (2023). Netherlands explained that emissions slightly differ due to the inclusion of bedding material in the emission calculations in the 2024 submission. The emissions were estimated using the methodology previously approved by ERT.

The impact of the adjustment on the NMVOC emission inventories of the Netherlands for the years 2005 and 2020 in ktonnes is detailed in **Table 2**.

**Table 2: Impact of adjustments on the NMVOC emission inventories of Netherlands for the year 2020 in ktonnes**

	Unit	2005	2020
<b>ERC</b>	<b>% of 2005</b>		<b>8%</b>
ERC unadjusted	(kt)		248.34
NT for Compliance unadjusted	(kt)	269.93	249.89
<b>Gap to ERC unadjusted</b>	<b>(%)</b>		<b>-1%</b>
ERC adjusted	(kt)		226.03
Adjusted NT for Compliance	(kt)	245.68	206.27
<b>Gap to ERC adjusted</b>	<b>(%)</b>		<b>9%</b>
Impact of adjustment on NT for Compliance	(kt)	-24.25	-43.62

### 4 Conclusions and Recommendations of the ERT

6. The reviewers concluded that there had been no change in the methodology that would alter the original approval of the adjustment application and that the application met all of the requirements set out in Executive Body decision 2012/12 and in the Technical Guidance; hence, it is recommended that the adjustment **continue to be accepted**.

## 5 Information Provided by the Party

7. Table 3 lists the information provided by the Party in its adjustment application. The information provided by Netherlands can be downloaded from the CEIP website<sup>1</sup>.

**Table 3: Information Provided by the Party**

Filename	Short description of content
NL_2024_annex_iaa_to_ece-eb.air130_adjustment_application_v20240802_v1.0.xlsx	<b>MS Excel file</b> with detailed data underlying the proposed adjustment applications for:  Manure management - Dairy cattle (3B1a)
NL__Informative_Inventory_Report_2024	<b>IIR 2024, pdf-document</b> ; here especially: Chapter 13: Adjustments and Compliance.
NL_declaration_on_consistent_reporting_of_approved_adjustments_2024.docx	<b>Word document; Declaration on consistent reporting of Approved Adjustments</b>

8. The ERT found it necessary to ask the Party for further information. The information provided is described in Table 4 below.

**Table 4: Additional Information Provided by the Party**

Filename	Short description of content
Answers to questions set up by ERT	Excel file at “Cleverworkplace” - platform at Umweltbundesamt website
NL_declaration_on_consistent_reporting_of_approved_adjustments_2024.docx	Corrected “Declaration on consistent reporting of approved adjustments”
